

## How to... use the *English for Life* Test CD-ROM

### Welcome!

These tests are designed to be used with the *English for Life* Intermediate Student's Book. You will find the tests in an accessible CD-ROM format.

All the tests are presented in two file types:

- as **PDF documents** for you to print out and use as they are
- as **Microsoft © Word documents** which you can edit and adapt to suit your teaching situation, particular students or syllabus, or the time you have available.

### Accessing and saving the tests

- Just click on the version you need and the test will open.
- You can then either print it off and use it directly in class (PDF version), or email it to your students who can work on it at home (*Microsoft* © Word version).
- To save an edited version of the tests, just click on 'Save as' and re-name the test.

### Test menu

There are 22 tests on this CD-ROM. You will find one test for each cycle of four lessons in the Student's Book. There is also a mid-course test covering lessons 1–40 and an end-of-course test covering lessons 41–80. The answer key is provided in one simple document.

<b>Test 1</b>	Lessons 1–4

### Test contents

Each test consists of 20 multiple-choice questions, with space for a, b, or c answers down the right-hand side of the page. You could prepare an OHT template of the correct answers for each test for ease of marking.

### Adapting the tests

There are several ways in which you can adapt the tests to suit your class:

- add or delete questions to make tests longer or shorter
- add or delete options within questions to make them harder or less challenging
- adapt names of places, people, or things to those your students will find more familiar or relevant
- add extra questions on language areas your students have found problematic
- change the format of the questions to gap-fill or other questions types that your students need to practise.

We hope you find these tests adaptable and easy to use.
